Dear Friends,

The Regional Council would like to hear from you about how you are adapting to carry on with teaching and Baha'i activities in light of this National Emergency involving coronavirus and COVID - 19.

The building of a new world civilization does not stop. Creative and dedicated individuals must continue to bring the hope of Baha'u'llah's message to all mankind.

Please share with us ways in which you are overcoming the current situation and moving on for the sake of all humanity. This pandemic is helping us focus on the needs of our fellow man, which are many. The key need is spiritual, underlying all others. Let us continue to meet that fundamental need.

With warmest regards and great appreciation for all your efforts,
